

NEWS: Dated 25.11.2020

Department of Biochemistry & Biotechnology of IIHS, KUK have started a series of lectures on the topic “Recent Trends and Perspectives in Biosciences”. As 1st lecture of the series a webinar was organized today i.e. on 25.11.2020 at 9.30 AM on the topic, “Advances in Global Health: Perspectives from Developmental Biology” on google.meet and facebook live at IIHS, KUK facebook page. The speaker of the day was Dr Elisha R Injeti, an Associate Professor and Director for Research and Development from Cedarville University, USA. He talked about the relevance of developmental biology to manage non communicable diseases especially cancer, stroke, COPD. He explained the fundamental of good health in global context and elaborated significance of prenatal development with adult health in a very lucid way. He also correlated various aspects of health i.e. physical, mental and social to developmental biology. About 150 students of Biological sciences attended the webinar. The lecture generated lot of interest among the audience as evident from the queries raised during the interactive session. Dr Anita Dua, HOD Biochemistry & Biotechnology, IIHS welcomed the guest. Dr Ashwani Mittal introduced the speaker of the day. Dr Sanjeev Gupta, Principal, IIHS thanked the guest. Various faculty members including Dr Anil Gupta, Dr Parmesh Kumar, Dr Deepika, Dr Priyanka, Research Scholars along with the students of the institute were present during the webinar.

The image shows a screenshot of a Facebook Live webinar. On the left, a grid of 20 participants is visible, each with a circular profile picture and a name starting with a letter. A 'REC' indicator is in the top left corner. On the right, the Facebook Live interface is shown, including the page name 'Biochemistry and Biotechnology, IIHS, Erstwhile University College', the title 'Webinar Series on "Recent Trends and Perspectives in Biosciences"', and the presenter 'Dr Elisha R Injeti...'. Below the title, there are interaction options like 'Like', 'Comment', and 'Share'. A 'Comments' section is visible with two comments from 'Jatin Jangra' at 7:58 and 6:11. The chat window in the center shows a message from 'Deepak Jangra' at 10:30 AM asking about fetal origin of adult diseases, and a response from 'Ayush Mutreja' at 10:32 AM. Another comment from 'Akanakha Saini' at 10:39 AM is also visible.

Facebook Live interface showing a presentation slide titled "GLOBAL HEALTH DEFINITION" from Cedarville University. The slide lists four points: "Highly interdisciplinary & multidisciplinary.", "Embraces population based prevention.", "Integrates clinical care of individuals.", and "Pursues health equity for all." The presenter is Elisha R Injeti, and the video shows a grid of participants.

News: Dated 2.12.2020

Department of Biochemistry & Biotechnology of IIHS, KUK organized 2nd webinar on the topic entitled, “Career opportunities in Biosciences” on 2nd December 2020 at 9.30AM onwards via google-meet and facebook live on IIHS, KUK facebook page. The speaker of the day was Dr Ajay Pal, a senior Assistant Professor from Biochemistry department, CCSHAU, Hisar. He initiated his talk with the history and journey of Biochemistry started from Germany to rest of the world including in India. He talked about three Ministries of Government of India including Agriculture and Farmer welfares, Science & Technology and Ministry of Defense and their related institutes, universities and research centers including NBAGR (Karnal), ICAR (New Delhi), CDRI (Lucknow), DRDO (New Delhi) who deal with biological sciences under these ministries. In his talk he covered the best possible job opportunities at each level starting from graduation to doctoral level. About 120 students of Biochemistry, Biotechnology and Medical streams of IIHS attended the webinar. Dr Anita Dua, HOD Biochemistry & Biotechnology, IIHS welcomed the guest. Dr Ashwani Mittal introduced the speaker to the participants. Various faculty members including Dr L.K. Chugh (HOD, Biochemistry, CCSHAU, Hisar), Dr Sanjeev Gupta (Principal, IIHS), Dr Anil Gupta, Dr Deepika, Dr Priyanka, Research Scholars along with the students of the IIHS, KUK and CCSHAU, Hisar were present during the webinar.

Good mornina

NEWS dated 4.12.2020

“To boost the energy level of students and also give them an institutional/university family feel where students and faculties work together. Though we are away from each other and physically cannot meet due to Covid19 pandemic condition of the world where India is also affected, does not mean that we should leave the hope for life and miss all funs which we used to do, with these thought, Department of Biochemistry organized a virtual meet for all classes of Biochemistry on 4.12.2020. Dr Anita Dua, HOD of the department introduced the developments in the Biochemistry department in IIHS and the faculties to students. Thereafter one of the final year students named Mr Aditaya Pandey took a lead and introduced all the faculties to his juniors in the form of a poem, followed by other students. Students had great fun, they got introduced to their fellows and also could interact for the first time with their seniors, juniors and all faculty members of the subject in this session.
